

Top Action Team Priorities for 2021

Action Team	Top Priorities
Agriculture Led by Gordon Hoover and John Williamson	<ol style="list-style-type: none"> 1. Identify leads in each RCPP Tier 1 and Tier 2 catchment to coordinate visits with farmers 2. Secure plans and funding for those leads for their 2021 work 3. Track every BMP installed
Buffers Led by Ryan Davis and Ashley Spotts	<ol style="list-style-type: none"> 1. Complete list and map of stellar buffers in each municipality 2. Collectively implement 500 acres of buffers 3. Increase capacity for implementation – support partner organizations to hire 3-5 more staff in 2021, 3 more in 2022
Communications Led by Emily Smedley	<ol style="list-style-type: none"> 1. Coordinated effort of media outreach (3-5 media placements; Prepare for PR opportunities together by creating media pitches that highlight Lancaster’s collective clean water work and successes) 2. Develop shared messaging and data points to bolster clean water work happening in Lancaster County and necessary increase in work (Goal: Finish shared messaging section in “brand book” for different sectors in Lancaster County, have plans to update frequently; Develop 3-4 data points and messaging; Engage 5 new partners who have not been represented in clean water efforts through messaging and data points.)
Data Management Led by Ruth Hocker and Rupert Rossetti	<ol style="list-style-type: none"> 1. Develop Lancaster specific data visualization (i.e. dashboard, storymap featuring success story, etc.) 2. Develop a data sharing agreement for use with all partner organizations and users. (finalized by July 2021) 3. Provide Steering Committee with recommendation(s) for data storage and warehousing; final decision by August 2021, system set up by November 2021
Stormwater Led by Kristen Koch and Joellyn Warren	<ol style="list-style-type: none"> 1. Education workshops (continue the successful lunch and learns with 5 each series/season and MS4orum) 2. Implement CAP-funded projects in stream delisting priority catchments that overlap with urbanized areas where opportunities exist to go above and beyond minimum compliance reductions.
Watersheds Led by Carly Dean and Matt Royer	<ol style="list-style-type: none"> 1. Launch the Collaborative Watershed Mapping Tool Version 2.0 2. The launch of a “rapid delisting strategy” which identifies small priority watersheds for focused outreach and implementation to address local stream impairments.
