

SOUND SYSTEM INSTRUCTIONS

These are instructions for setting up the sound system. This page can be printed out for your convenience, The owners manual for this system can be found online at <https://harbingerproaudio.com/wp-content/uploads/manuals/Harbinger-HA120-Owner-Manual.pdf>

SET UP THE SPEAKERS

1. Loosen the bottom knob on the stands to open the tripod. Tighten to lock legs in place
2. Loosen the top knob on the tripod to raise the speaker bar to the height you need. Tighten the knob to lock it in place. (make sure it's tight as it will be supporting the speaker)
3. Lower the mount hole on the bottom of the speaker onto the speaker bar

CONNECT TO POWER AMP

4. Connect the power cable into the power outlet on the back of the power amp (don't plug it in yet)
5. Connect the speaker cables to the left and right channels on the back of the power amp
6. Connect the other end of the speaker cables into the back of the speakers
7. Plug the microphone cable into the MIC connection for Channel 1 on the front of the power amp. Plug the other end into the microphone. If you are using more than one microphone (you'll need to provide your own cable), plug into MIC for Channel 2.
8. Plug in the power cable and click the toggle switch on the back of the power amp). The speakers have no power buttons. They will just come on.
9. Adjust microphone volume with the knob labeled "Volume" on the front of the power amp.

If you have an emergency (only an emergency) call Kenn Bennett at (717) 940-6900.
